This concise handbook is intended for postgraduate students and their supervisors. The author has travelled the postgraduate journey (PhD, MPH and PDHE) and experienced all the challenges and difficulties that most postgraduate students are likely to encounter. He has conducted research (which resulted in a patented invention), supervised postgraduate students, taught postgraduate courses and examined PhD theses and master's degree dissertations.

This easy-to-read, straightforward volume outlines the concepts and strategies that will greatly facilitate the successful completion of postgraduate studies and offers help and advice on research methods, data analysis techniques, writing skills and student-supervisor relationships. The author demystifies complex research concepts and methodologies by explaining them in simple terms and making them understandable to students and novice researchers. The manual is an invaluable guide to postgraduate studies and provides an explanation of the methodologies, philosophical basis and concepts that underpin postgraduate research.

This concise manual is essential reading for all PhD students, master's degree students and others pursuing, or contemplating, a postgraduate qualification. It is also recommended as an indispensable guide for supervisors of postgraduate students.

Chapter 1. Factors to Consider When Deciding to Obtain a Postgraduate Qualification (Aceme Nyika)
Chapter 2. Philosophical Background of Knowledge and Some Adult Learning Theories: Simplification of the Terminology (Aceme Nyika)
Chapter 3. Postgraduate Programmes: Variety, Depth, Credits and Enrolment (Aceme Nyika)
Chapter 4. What is Research? Research Questions, Research Designs and Types of Variables (Aceme Nyika)
Chapter 5. Reliability and Validity of Quantitative Research Instruments (Aceme Nyika)
Chapter 6. Writing a Research Proposal: From Title Through Research Question and Conceptual Framework to Methodology (Aceme Nyika)
Chapter 8. Research Integrity: The Obvious and the Less Obvious Dimensions (Aceme Nyika)
Chapter 9. Professional Doctorate Degrees: How Do They Differ From Conventional PhD Degrees? (Aceme Nyika)

Order from:
Postgraduate Handbook: A Comprehensive Guide for PhD and Master’s Students and their Supervisors
Author: Aceme Nyika (Published: 2018)

Molecular Biology of Kinetoplastid Parasites
Edited by: Hemanta K. Majumder (Published: 2018)

Bacterial Evasion of the Host Immune System
Edited by: Pedro Escoll (Published: 2017)

Illustrated Dictionary of Parasitology in the Post-Genomic Era
Author: Hany M. Elsheikha and Edward L. Jarroll (Published: 2017)
"a guide for students, academic staff, medical and veterinarian professionals" (ProtoView)

Next-generation Sequencing and Bioinformatics for Plant Science
Edited by: Vijai Bhadouria (Published: 2017)

The CRISPR/Cas System: Emerging Technology and Application
Edited by: Muhammad Jamal (Published: 2017)
"reviews recent advances" (ProtoView)

Brewing Microbiology: Current Research, Omics and Microbial Ecology
Edited by: Nicholas A. Bokulich and Charles W. Bamforth (Published: 2017)
"a valuable information source ... an authoritative overview" (IMA Fungus)

Metagenomics: Current Advances and Emerging Concepts
Edited by: Diana Marco (Published: 2017)

Bacillus: Cellular and Molecular Biology (Third edition)
Edited by: Peter L. Graumann (Published: 2017)
"a one-stop shop for a huge range of Bacillus-focused molecular biology" (Microbiology Today)

Cyanobacteria: Omics and Manipulation
Edited by: Dmitry A. Los (Published: 2017)
"a treasure trove of valuable information" (Biospektrum)

Brain-eating Amoebae: Biology and Pathogenesis of Naegleria fowleri
Author: Ruqaiyyah Siddiqui, Ibne Karim M. Ali, Jennifer R. Cope and Naveed Ahmed Khan (Published: 2016)
"explains the current knowledge and research" (ProtoView)

Foot-and-Mouth Disease Virus: Current Research and Emerging Trends
Edited by: Francisco Sobrino and Esteban Domingo (Published: 2017)
"important comprehensive review reference" (JAVMA)

Staphylococcus: Genetics and Physiology
Edited by: Greg A. Somerville (Published: 2016)
"The editor has done a masterful job" (JAVMA)

Chloroplasts: Current Research and Future Trends
Edited by: Helmut Kirchhoff (Published: 2016)
"a comprehensive guide" (ProtoView)

Microbial Biodegradation: From Omics to Function and Application
Edited by: Jerzy Długosnacutski (Published: 2016)
"a valuable companion to both early and established researchers" (Micro. Today)

Influenza: Current Research
Edited by: Qinghua Wang and Yizhi Jane Tao (Published: 2016)

MALDI-TOF Mass Spectrometry in Microbiology
Edited by: Markus Kostrzewa and Sören Schubert (Published: 2016)

Aspergillus and Penicillium in the Post-genomic Era
Edited by: Ronald P. de Vries, Isabelle Benoît Gelber and Mikael Rædam Andersen (Published: 2016)
"new and well-presented book" (IMA Fungus); "specialists in the field should definitely take a look" (Biospektrum)

The Bacteriocins: Current Knowledge and Future Prospects
Edited by: Robert L. Dorit, Sandra M. Roy and Margaret A. Riley (Published: 2016)
"a comprehensive survey" (ASM: Small Things Considered); "an abundance of information" (BioSpektrum); "excellent book" (Micro. Today)
